*And we know that in all things God works for the good of those who love him, who are have been called according to his purpose. Romans 8:28*

## CMC Vellore launches Centre for Excellence in Neurotechnology

24th January 2026, Vellore

In a significant step towards strengthening India's advanced neurological care and research ecosystem, Christian Medical College Vellore has launched the Centre of Advanced Neurotechnology at the CMC Vellore, Ranipet campus, in collaboration with the Vattikuti Foundation. The Centre marks the commissioning of an advanced MR-guided Focused Ultrasound (MRgFUS) system, expanding to non-invasive treatment options for patients crippled with essential tremors and tremors in patients suffering from Parkinson's disease. The Insightec MR-guided Focused Ultrasound (MRgFUS) system donated by the Vattikuti Foundation uses real-time MRI to precisely neuromodulate known surgical targets without the need for anaesthesia, incisions, implants, blood loss, or prolonged recovery despite old age.

## 125 Years of CMC Vellore

1900-2025

DID YOU  
KNOW?

Former Director Dr Benjamin Pulimood, represented Kerala in the Santosh Trophy as a goalkeeper.

It offers a lower-risk therapeutic alternative for patients who continue to suffer, as they do not want to undergo surgical risk and cannot afford it. The launch addresses the growing burden of movement disorders in India, where an estimated four to ten million people are affected by tremors of different kinds and are dependent on medicines for the rest of their lives. Cost-effective treatment and advanced research in pursuit of improving the quality of life for these patients is the foundation's mission. The MRgFUS system offers expanding clinical and research opportunities across a wide range of neurological conditions, including patients of epilepsy who are non-responsive to treatments, neuropathic and intractable pain, substance abuse and addictions, neuropsychiatric disorders such as depression and obsessive compulsive disorder, and supportive management of brain tumours. By anchoring the Centre at CMC Vellore, a nationally recognised referral and academic institution, the initiative aims to improve access to advanced neurotechnology for patients across the country, including those from non-metro and underserved regions, while playing a dual role in delivering patient care at scale and advancing neuroscience research.

The launch brought together senior clinicians, neurologists, neurosurgeons, radiologists, researchers, and leadership from CMC Vellore and the Vattikuti Foundation, who discussed the long-term clinical, academic, and societal impact of non-invasive neurotechnology on India's evolving neurological care landscape.

Dr. Vikram Mathews, Director, CMC Vellore, said, "The Centre for Excellence in Neurotechnology strengthens CMC's mission to integrate innovation with compassionate patient care, education, and research. We are grateful to the Vattikuti Foundation for their support in enabling this initiative."

## Carnival 2026-Marathon

The Carnival 2026 Marathon took place on 26th January 2026. The event was organised by the Students Association of Christian Medical College Vellore, in collaboration with the Department of Endocrinology, Diabetes and Metabolism; accordingly, this year's theme was: Saving Limbs from Amputation in Patients with Diabetes. The International Working Group on the Diabetic Foot (IWGDF) estimates that every 20 seconds somewhere in the world someone loses a leg due to diabetes-related foot diseases & complications. The loss of a lower limb can have a devastating impact on an individual's livelihood and quality of life.

Collectively, the management of Diabetes and its complications, including lower limb amputations (LLAs), is a colossal Public Health and Healthcare undertaking, which requires a multidisciplinary team of Physicians, Specialists, Surgeons, Diabetes Educators, Prosthetic & Orthotic personnel and Physiotherapists. **Prevention is always better than a cure.** To raise further awareness about this issue, a concomitant Logo Design Competition on the theme was also conducted, with enthusiastic participation from staff and students. The winning logo submitted by Sruthik Roy was featured on the Marathon T-shirts. Gayathri V and Sameer Maaz S secured the 2nd and 3rd place, respectively.

The marathon events on 26<sup>th</sup> January kicked off at 5:30 am with the College Hill Climb, inaugurated by Dr. Tripti Meriel Jacob, Professor & Head, Anatomy. The marathon itself was conducted across several categories, including 2K and 5K mixed walk and separate run for Men and Women and a 10K Mixed Run. By 8:00 am, the start line & registration desk were abuzz with activity; there were over 500 online and on-spot registrations. Informative banners, posters and multilingual short videos, curated by the Department of Endocrinology, on various aspects of Diabetes Management and specifically Diabetes Foot care, were displayed at strategic locations at the venue. Dr. H.S. Asha, Professor & Head, Department of Endocrinology, Diabetes & Metabolism, delivered the welcome address, highlighting the theme and the importance of the occasion. Dr. Henry Prakash, Professor & HOU, Physical Medicine and Rehabilitation, & Associate Medical Superintendent, presented an invigorating opening speech, which had the runners amped up and ready to give their best performance; he then performed the ceremonial ribbon-cutting, joined at the start line by the Physical Director Dr. R. Balaganesan, to mark the commencement of the races.

The races for different distances began in a staggered manner; flagged off by the Principal, Dr. Solomon Sathiskumar. The participants made their way along a winding path, running laps through the scenic Bagayam Campus; the thunderous beat of their footsteps breaking the quiet stillness of a chilly Monday morning.

Dr. Suceena Alexander, Professor and Head of Unit-3, Nephrology, and Dr. H.S. Asha distributed the prizes to the winners of the 2K and 5K races. In the 2K race, Ignatious George and Hallel Reba took the top spots in the Men's and Women's categories, respectively.

Dinesh M and Caren Mercy Sujith emerged victorious in the Men's and Women's categories, respectively, in the 5K Race. Venkatesan A. claimed a hard-fought victory in the Mixed 10K Race; he was felicitated by Dr. Tarun John Jacob, Associate Professor, Pediatric Surgery, who also distributed prizes to the winners of the Logo Design Competition. The first prize winners in each race category were awarded cash prizes and the top 5 finishers were recognised with special prizes; all participants who completed the race received completion Certificates.

*Ignatious George Winner 2K Men's Race*

*Hallel Reba Winner 2K Women's Race*

*Dinesh M. Winner 5K Men's Race*

*Caren Mercy Sujith Winner 5K Women's Race*

*Venkatesan A. Winner 10K Race*

## Global Interventional Radiology Day (GIRD)

The Division of Clinical and Interventional Radiology, CMC Vellore, is delighted to share the initiatives as part of the Global Interventional Radiology Day (GIRD) celebration. On January 16th, our hospital corridors resonated with celebration of medical innovation along with diligent patient care. Dr. Anu Eapen, Head of Radiodiagnosis, welcomed the gathering. The Medical Superintendent, Dr. I. Rajesh, highlighted the role of interventional radiology (IR) as a minimally invasive treatment modality as well as its role in reducing hospital stay. Dr. Suceena Alexander, Vice Principal, mentioned the historical milestones of interventional radiology. Local NGO, Mr. Gnanamoorthy, addressed the public.

There was enthusiastic participation from faculty, residents, nurses, radiographers, students, and volunteers. It was indeed teamwork. Dr. Shyamkumar N Keshava, Head of IR and Clinical Radiology, mentioned that a survey is being conducted among the medical personnel for their feedback and scope for enhancing IR services. A free health check-up and Carotid Artery Doppler Screening Camp was organised at both our Town Campus and Ranipet Campus. This initiative aimed to shine a light on the silent threat of stroke and the critical role of early detection. Over 400 individuals participated.

Two interactive educational stalls further engaged the public with live demonstrations and models explaining stroke management, uterine artery embolisation, genicular artery embolization and several other image-guided pinhole procedures. There was a reel-making competition, with creative submissions from DM, MD, MBBS, and Radiography students, as well as nurses, which were awarded and widely circulated on social media. It showcased various minimally invasive image-guided surgeries in IR as cancer ablation, vascular procedures like embolisation, angioplasty and stenting and non-vascular procedures like drain placement and image-guided tissue sampling. It emphasised faster recovery, less pain, and lower risk associated with these procedures. The programme concluded with prize distribution to the winners.

## Silver Jubilee Celebrations of the Indian Journal of Continuing Nursing Education

The Indian Journal of Continuing Nursing Education (IJCNE), an official publication of the College of Nursing, CMC, Vellore, has been published since 2000, marking a silver jubilee this year. IJCNE is a double-blinded, peer-reviewed, semi-annual journal that publishes concept, clinical and research articles in the field of nursing. It is indexed in the Indian Citation Index and listed in the Index Copernicus Master List. To commemorate the Silver Jubilee celebrations of the IJCNE a series of events and competitions was planned.

Over 160 students and faculty members actively participated in competitions such as essay writing, pamphlet design, IJCNE cover page design, quiz, journal scrapbook, and data visualisation. On January 16, 2026, an official program was held as a mark of gratitude to the pioneers, current editors and working team members. All the staff and retired faculty were invited to the event.

The inaugural program began with a word of prayer by Rev. Christina. Dr Punitha Ezhilarasu, founder Editor in Chief, addressed the gathering as the Chief guest. The inauguration was followed by thoughtful debate titled Open Access is the future of scholarly publishing. A seminar titled 'The Art and Science of Scientific Writing' was organised for the College of Nursing faculty in the afternoon. It was an overwhelming sense of gratitude to have published the journal uninterruptedly for the past 25 years.

## Special Prayers: February 1 - 7, 2026

**Clinical Biochemistry** : Dr. Jayakumar Amirtharaj G. and Staff
